1070 Wien, Austria

Dear Laurenz and Sophie,

We are writing to say thanks so much for making such a beautiful and affordable wine, Laurenz und Sophie Singing Gruner Veltliner. After tasting your "Charming" we could not wait to taste another one of your wines.

We love to go out to wine tastings and to sip at restaurants and wine bars, but as you know, most of all, we like to drink at home with a good home cooked dinner. A very nice mutual friend was kind enough to share a bottle of Singing which we enjoyed tonight.

It is exciting to know, Laurenz, that you and your daughter, Sophie, have had the opportunity to create this wine together. My daughter, Nell, and I love to work on projects together and know what a joy it can be.

Here we are happy as can be.

We certainly agree with your words that Laurenz und Sophie "sings" on the palate - is lively and vibrant still balanced and very food friendly."

I will also say that the grapes you chose from the loamy gravely soils of the Kremstal region combined with grapes from the flourishing Weinviertel region really work well to give the wine very appealing scents, tastes and textures.

We are delighted that your dream to bring Austria's indigenious grape to our table has come true. We will be sharing this wine with friends and bringing it to their table for you.

Very Best Regards

Peter and Nell Conway

Montclair, NJ USA
